A REMARKABLE GASE.

AREMARKABLE GASE.

M. SHERMAN'S Medicated Lozenges, says that a poor woman called at his Office and stated that her daughter, seven years old, had been sick for nearly three years; her stemach was castended to the size of a grown person's; her arms and legs so avollen that she could not walk or help herself, although she could eat as much as two laborize men. They had employed two selebrated doctors, who could do nothing for her, and had given her up as incurable. Her husband had become discouraged, and abandoned all idea of trying to do any thing more for her, and looked to death alone to take her out of her missery. Mrs. Marphy, believing her case to be one of Worms, gave her a box of Sherman's Worm Lozenges, and is two slays she returned, with joy beaming in her eyes, and said the Lozenges had saved her child's life, after all had given her up. The first dose brought away nearly a pint of worms in one living mass. She had not taken two boxes before she was entirely cured, having yassed after the first dose, which she could not count, ever 800 worms in one week. She was literally eaten up with them. Another living witness of the almost miraculous effency of Sheratam's Lozenges. Principal Office in Xew-York, 106 Nassau street.
